TOP'S HONEY

We are generations of beekeepers with extensive experience and new insight into the profound traditions of beekeeping. We have a modern base, new car park and a very high class of equipment. Our products are eco-friendly with exceptional quality and are 100% organic in origin.

We have 3,300 bee families in eco-friendly acacia and linden forests in the Pre-Balkans.

Sales capacity: 2500 offspring per year.

We produce bee colony queens.

Capacity: 4000 queens per year, with proven excellent family health giving our honey the best taste and imbued beneficial properties.

We practice mobile beekeeping with modern techniques in acacia, linden, coriander, lavender and sunflower bee fields.

We service up to 500 bee families per day

during the collection with the removal of the "trays" from the hives and transporting them to the production base.

At Top's Honey we have a 900 m2 production base, with the latest generation of equipment to extract the bee products as quickly as possible.

The automated production line has a yield capacity of 500 kg honey per hour and the possibility of different sized containers: glass jars, tins of 25 kg and barrels of 300 kg.

We have a top quality dryer specifically for our pollen.

Our warehouse has a capacity of up to 300 tons of bee products for the Bulgarian and world markets.

Sparkling in golden light and the scent of fragrant herbs, Top's Honey bee honey is all natural, 100% pure. When you taste it, you understand the meaning of the term "sweet as honey"! It gives you a pleasant feeling, a wonderful mood, energy and health in the most natural way - from nature. The glass packaging keeps it pure and unchanged until it reaches your table. Pure honey from Top's Honey is completely absorbable by the body. It balances and diversifies your diet, enriches it with vitamins, minerals and important bioactive ingredients. With it you can always be sure that you get the original healthy product exactly as it is extracted from the honeycomb cells.

BOUQUET HONEY

30 g

Why choose this mini pack of organically pure honey from Top's Honey? Our customers tell us that this is an extremely practical, compact and convenient option that allows you not to be without your favorite sweetener, even when on the go or on a trip. It is also a good solution for celebrations and holidays. And with its boutique charm it is also an original sweet gift.

700 g

Bouquet honey with bee pollen is a delicious and useful product with high nutritional and medicinal value. Extra merit is the honeycomb pieces dipped in a transparent golden elixir of gold. The honeycomb is made of beeswax produced by the bees themselves in the beehives of Top Honey in the Pre-Balkans. It is believed that the waxy honeycomb pieces have antiviral properties and activate cell regeneration.

Exotic aroma, gourmet taste and exquisite experience gives you our 100% pure polyfloral honey, combined with black summer truffles - some of the most expensive and valuable rare mushrooms sought after by passionate lovers of quality food. Delicate mushrooms not only delight the senses, but also increase the mood and confidence of those tempted by wonderful taste. Therefore, they are deservedly a worthy partner to our honey.

HONEY with TRUFFLES

HONEY with BEE POLLEN

230 g

The combination of 100% honey with bee pollen gives strength, power and pleasure. It is the most delicious and effective way to restore your health. In just ten days, intake activates vital functions in the body. It accelerates tissue renewal and healing, increases energy, durability and performance. There is no equivalent to its health benefits in either natural foods or pharmaceuticals.

100 g

Bee pollen is of natural origin with amazing properties. Small golden-brown beads are saturated with nutrients which intensify the life processes in the body with only 2 tablespoons per day. To collect our pollen, we gather the pellets produced by the worker bees at the entrance of the hives. We dry it without any other processing and thus preserve its maximum purity and composition.
